THE RACES OF MANKIND

Now—All Came from Asia

M. de Quatrefages, the leading French
ethnologist in presenting the science
of the Races to the Academy of
Sciences has given an interesting sur-
vey of the general conclusions with re-
spect to the origin and distribution of
mankind.

Sketching the minor differences
of customs that there are no fewer than
seventy-two distinct races of the human
species. All these descend in a line from
three fundamental types—
the yellow and the white—
had their origin at the great center of
the old world. Representing types of the
different types and the races of
spring from them are still to be found

the white, according to M. de Quatrefages, are the most numerous and
the most powerful. They occupy the
west of the central mass the yellow
the north and the black on the south.
The whites extended westward into
north and giving birth to three second
types the Finnish the Semitic and the
Aryan. It is except the Algonquians
which form a separate group. Their
mode of habitation is continuous, as is
that of the whites because of the ex-
tensive land surface of the continent.
The yellow races occupy the central
and south of Asia. They have with
each other a great many varieties of
the black, or negro type, which origi-
nated in the south of the central mass
was forced by the nature of the continent,
and probably by the attacks of the
white and yellow, to go south into Af-
rica, and thence into the land in which he
now dwells.

The negro races occupy the south of
the continent, and the two races, the
negro and the white, are the most
numerous. In the center and
south of Africa the blacks continued in
the three parts into the sub-Saharan
the three races from Europe and the north
of Africa into the south of the continent.

the three races, occupied the three parts
of the continent, and the three races

Excursion Rates to Storm Lake.

Storm Lake, Iowa, only six miles west of Sioux
City is coming into prominence, not only on a
count of being the outfit town, but because
of its fine lake, five miles long, by two miles
wide, which has already become a popular res-
ort, furnishing the customers facilities of
swimming, fishing, boating, etc. The location of this resort, on the
edge of the lake, is especially convenient, and it has
therefore been in demand for some time. For
information, apply to the agent at Storm Lake,

ELECTRICITY And Watches.

On account of the many electrical appliances now used it is of great importance that watches should be non-magnetic, or should be provided with non-magnetic cases.

The application of Anti-Magnetic Shields to pocket time-pieces promises to be of very great importance to horologists and watchmakers; it will render operative the fine adjustments and mechanisms which hitherto have been almost nil and inoperative on account of their susceptibility to the all-pervading magnetic influence.

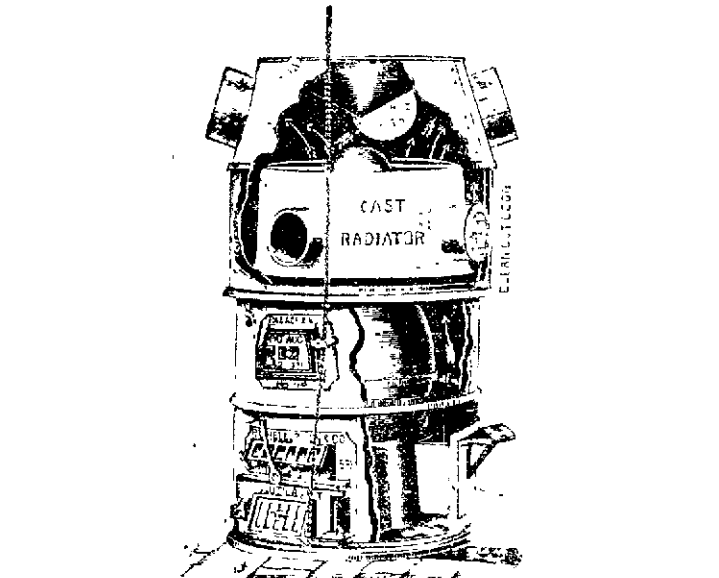

For a more complete description of the effects of magnetism in watches, with illustrated pamphlet, address

NO!
NOT DEALERS IN FLOUR.

We deny it because one cannot be a dealer who parts with the merchandise without a valuable consideration. Why do Ferriss & Lapham give barrels and sacks and sacks of flour away to people who trade with them? It is because it is good to have, it is bone and muscle, and brains; otherwise they would give sand or salt, or something else cheaper than Pillsbury's best—and a barrel at a time, and sack after sack of Pillsbury's and Hatfield's very best flour.

Shoes of FERRISS & LAPHAM and get 10 per cent off shoes than elsewhere for the same price, and also find that you stand an equal show with all the rest of the world in having the best flour in the world.

Odd Fellows' Exercises at Celestial Hall Sunday Afternoon.
The third anniversary of the death of Thomas Wildey, founder of the great order of Odd Fellows, was fittingly observed Sunday afternoon at 3:30 o'clock by the lodges of this city, at the hall of Celestial Lodge 186, in Powers' Block. The attendance of the membership of 186 and 65, with their families, was quite large and the ceremonial and special exercises were quite impressive. C. J. Hartley, the Noble Grand, presided, and R. W. Robert Phillips had charge of the devotional ceremonies. Bro. DeWitt C. Corley occupied thirty minutes in the delivery of a carefully prepared essay on the father of Odd Fellowship, and the objects and benefits of the noble order.

Came Up On Bicycles.
Sunday seven young men of Springfield took a notion to visit the most beautiful and enterprising city in Illinois, and they came to Decatur on their bicycles—two of the tourists covering the distance of 44 miles in 5 1/2 hours. They put up at the best hotels, and had a ride on the electric street cars by way of variation. Robert Matlock, Walter Reed, Charles Robinson, Charles Brunning, Joseph Murphy, Charles Bonmann and William Barks were the visitors. While here they met a number of local wheelmen and had a pleasant visit. Come again.

This Is Important.
The talk now is that President Mackey is signing on extending the Peoria, Decatur & Evansville railway to Chicago from Decatur or some other good point. There is a good deal of chat in the Chicago papers on the subject. Such an extension would be a great boon for the Mackey system, which includes the P. D. & E., the Evansville & Terre Haute and the Evansville & Indianapolis road.

The Rev. J. A. F. King preached a far more than ordinary sermon at the Centenary U. B. church Sunday morning. His text was chosen from the book of Joshua and related to the rest which the Lord's people enjoy, and the obligations the christian is under, one to the other. The preacher delivered his sermon without notes, and he won the attention and interest of his audience. One of the members remarked: "Rev. King hit me in every sermon, and he has done so much good that I am inclined to raise his salary."

Captured at Last.
John Robison is a young man of 26 who is wanted at Scott county, Ind., for burglary and larceny. He has been in Macon and DeWitt counties for some months and had successfully escaped arrest until Saturday night, when he was found asleep in a bed in a farm house between Elwin and Mt. Zion. Sheriff Rice, of Scott county, spent all of last week in this vicinity looking for his man, and by the assistance of Marshal Mason, Constable Bailey, George Connor, and a lady of Elwin, the fugitive from justice was located. Sunday night Sheriff Rice left for his home with the prisoner in his charge. The sheriff was as happy over the capture as Robison was sad and gloomy.

THE COURT HOUSE MEETING.
Gathering of People to Hear a Talk by L. G. Jordan.
Sunday night a mass meeting of white and colored people was held at the court house in the interest of all American citizens regardless of their color. It was conducted by Rev. L. G. Jordan, the cyclone prohibition platform orator, assisted by Rev. Fleuning Gray and a double quartette which sang a number of plantation melodies. The meeting was the first of similar meetings to be held on the third Sunday of every October in future, the day having been set apart as one of fasting and prayer by the general conference of the colored Baptist denomination at the recent meeting held at Indianapolis. A committee for all of the states of the Union, selected by the conference, was appointed to visit the National congress at Washington in the interest of the American citizens who do not enjoy the rights accorded them by the laws of the country.

Rev. L. G. Jordan delivered an earnest address on the subject during which he said that the colored people constituted one-seventh of the population of the United States, but it is not guns the negro wants—it's a chance he desires to get along in the world and enjoy the rights of his citizenship. He said there was but one secular paper in the country that stood right on the negro question and that is the Chicago Inter-Ocean. The pulpit is dead and dumb on the question and the one thing the negro ought to do is to get hold of the worthy newspapers published by men of their own color and also the Inter-Ocean and inform themselves, and then stand up for their rights.

If they know of a wrong or see one, speak of it. Trust to the Lord and do right. You must overcome the color line in the interest of the oppressed, but you must not draw the color line yourselves. God speed the time when every man regardless of his color will be regarded as a man according to his intellect and standing in the community in which he lives. Just as sure as wrongs exist they will be righted. We have friends in the north and also in the south. Incidentally the speaker alluded to his somewhat amusing experience in South Dakota where there are but few colored people—how the children there thought he was something different from a human being. Rev. Jordan asserted that the colored people are the most unobedient race on the globe and even now are not understood by the people at large. He thought it was every negro man's privilege and duty to educate himself and his children and in time all would enjoy their rights as citizens.

A collection was taken up to help pay the expenses of Bro. Hillman, of Springfield, the Illinois committee man, selected to visit Washington during the session of congress. A plan of securing homes for the oppressed negroes is under consideration.

At Rest.
The funeral of the venerable Larkin Kindred, the highly esteemed colored citizen who died on Friday, took place from the African M. E. church on Sunday afternoon. It was very largely attended by citizens generally who joined in paying their last respects to the deceased, who had lived a quiet, useful and exemplary life in Decatur. Larkin Kindred was a good man in the truest sense of the word, and many there are who will miss his pleasant companionship and kindly words of greeting. He was one of the active members of the church whose interests he guarded as faithfully as he did those of his household. Rev. C. H. Sleen delivered the funeral discourse and paid a well deserved tribute to the christian life and character of the deceased. The pall-bearers were Henry Bristow, Albert Phenix, Mr. King, Albert Love, Jesse Wright and Sidney Garrett. Interment in Greenwood cemetery.

The Trouble at Atwood.
They are having more trouble at Atwood, on the L. & W. road, in the corner of Platt county. It is among the brethren of the church. A telegram states that Rev. Mr. Sims, of Camargo, came among the brethren and one of the elders charged him with having made improper proposals to one of the sisters of the church. This Rev. Mr. Sims denounced as a lie, and a hand-to-hand struggle ensued. The reverend gentleman had the elder arrested and put under \$500 bonds for attempting his life with an axe. This enraged the elder and he locked up the church and refused to let the Rev. Mr. Sims preach in it. The latter went to the school house near by and began to preach, when he was "sacked." They claim that the Rev. Mr. Sims presented fraudulent letters, and that he has no authority to preach. The matter will be investigated by the grand jury.
